

2022

THE TOP 10 LIST

TIMELESS TRENDS

KBW INTERIORS
BY KAREN B WOLF

HELLO

Welcome to my Timeless Trends E-book. Perhaps you have followed me on Instagram @karenbwolfinteriors, read my blog posts or tracked some of my nationally published insights. Or if you are new to my voice and vision I am thrilled to share my trend collective with you, now all in one spot in a cohesive manner. In this particular e-book I am focusing on my latest home design trend observations seen and found through my travels to trade shows, industry events, and tracking of social media and trend banks.

I hope you enjoy my trend journey,

Karen B Wolf

MEET KAREN

MY TREND JOURNEY

From home trends forecaster to lead designer, take a look at Karen's trend journey throughout her career.

The background image shows a sophisticated dining room. In the center is a white dining table surrounded by white chairs with curved backs. Above the table hangs a large, multi-tiered crystal chandelier. On the wall behind the table is a large, framed abstract painting with blue and white tones. To the left and right of the table are decorative vases filled with dried, feathery plants. The room has a light-colored carpet and a decorative crown molding at the top of the wall.

TOP 10 TIMELESS TRENDS

Are you ready? It's that time of year when we take stock, analyze, and recap the trends that made it into our homes, hearts and sometimes just the stores. As a trends lover, sometimes predictor but mostly synthesizer here is my view of our design world we work in, live in and see everyday.

The National Kitchen+Bath Association

01. BREATHE

A beautiful trend that continues from 2021, Breathe celebrates the outside in, natural materials and biophilia. Breathe is about wellness. A cleaner home means less cluttered environments. Woods are lighter, ceilings higher and windows wider and larger. The color green, selected by five major paint companies speaks to wellness. Garlands, ferns, vertical walls, privacy plant walls, plant ceilings and inside gardens trend in 2022. Overall, Breathe is 70's Cali vibe, open, airy and natural.

02. LOUNGE STYLE

If you thought 2021 was a year of comfort, 2022 will be even loungier. We will see cinema style seating that is super deep and super comfy. Extra wide, double loungers for sleeping, and materials like chenille boucle, brushed and washed fabrics, modell and of course bamboo and satin sheets for a better nights sleep.

03. AESTHETIC SERENITY

As we spend more time in our homes, hiding the mess has become a must. Clutter is gone, appliances and technology have gone “shy” turning subtle and invisible when possible. We’re seeing concealed garages and kitchens with ultrathin or invisible countertops, cooktop hubs or burners, and hidden pantries.

04. PURELY PRO

Not only is clients' safety and welfare at the utmost importance for 2022 but we are also seeking the latest technology and absolute best professional style product for home health, well-being and entertainment. Purchases range from new air filtration systems, touchless faucets, the latest infrared lighting water purification, and lighting systems that replicate circadian rhythms. Coveted hotel style goods include high-tech infrared saunas like the Dundalk outdoor barrel sauna and Nature 7 medical sauna.

Workout equipment like Peloton bikes are professional grade and home salon equipment such as the Emperor barber chair by AGS Beauty and the hydraulic facial chair by Pibbs mimic a salon experience. Appliances are hospitality driven like galley sinks, professional ovens as well as professional speakers and sound systems.

05. PROVENANCE OF PLACE

Also known as the 2021 Grounded Trend, Provenance of Place tells the story of historic influences to create importance and meaning to our spaces. We are seeing iconic architectural features like arches, keystones and corbels as well as reclaimed material dress our homes. Antique flooring like Belgian Bluestone, brick and cobblestone are recycling from old churches and historic dwellings.

06. GOING GOTH

Black is the new white. We are channelling our 90's nostalgia to a moody, deep, expressive cocoon in our homes. If not black, then nearly black countertops, black fields in our wallpapers, black finishes, lighting and fully ensconced dark rooms from ceiling to floor are creating the feeling of security and safety. Even our exteriors have gone dark.

07. SMALL SPARKLES

Bling has been gone from the home for the last few years, opting for matte finishes, timeworn metals and earthy textures. In 2022 expect the be jeweled and pearlcore trends to enter the home market in small ways. You can find tiny touches of sparkle in artwork, wallpaper, iridescent paint, jeweled tactile embellishments, beaded lighting, and mother of pearl tiles.

08. MOOD BOOSTERS

A happy bump to my Joy trend from 2021, Pantone named Very Peri the color of 2022 and it does nothing but bring a vibrant smile. Elements like color, humor and abundance can be used to create experiences that bring us happiness. This trend is mostly about color, humor and positivity. We expect 2022 to be all about hope with Pantones' Veri Peri color of the year lifting our spirits.

09. GREEK CHIC

A hellenistic revival, we will pay homage to ancient Greek motifs from bust statues to, Corinthian cornices, Aphrodite imagery, gold, blue, black and white palettes and vessels and urns from ancient times. Timeless and classic, trends that have historical roots feel right for 2022.

10. SACRED SPACES

In 2021 we called this trend Renew. In 2022, Renew has become more conscious and intentional. Gen Z are looking for ways to raise their vibration, searching for spiritual awakening stages and even aura colors. At home, spaces become sacred with spiritual décor that will raise your vibration. Baths, meditation rooms, healing zones, and intentional space planning are trending. A recharge for the soul and forgiveness to self in Sacred Spaces slower moments are celebrated and boundaries between work and home established. Home has become our sanctuary and finding these spaces to recharge within our walls is essential.
